**Re: Notice of Potential Liability
Lower Darby Creek Area Superfund Site,
Operable Unit 1 – Clearview Landfill
Darby Township, Delaware County and Philadelphia, Pennsylvania**

Dear Mr. Barber:

PECO Energy Company has just received Acting Director Armstrong's Notification under CERCLA Section 107(a) with respect to the above-captioned site. Since receipt of this Notice, we have had no contact with any of the other persons provided a similar notice who may themselves be considering the formation of a steering committee.

The United States' Notice did not contain any information that would lead us to believe that PECO Energy Company has arranged for the disposal of hazardous substances at the Clearview Landfill and we are currently unaware of any such activity by the company. Without any such information sharing by the United States, we are unable at this time to commit to any action pertaining to this site.

Please provide any and all information in your possession that would lead you to believe that PECO Energy Company has arranged for the disposal of hazardous substances at the Clearview Landfill. Please include such relevant information as dates and times of disposal, nature and quantities of hazardous substances, records from Tri-County Hauling, Inc. purportedly demonstrating waste transport from PECO Energy Company and the names and addresses of any persons claiming to have witnessed such transport.

To further assist in our determination, please provide all information pertaining to Operable Unit 1 of the Clearview Landfill Site, including the remedial investigation report, the feasibility study and all follow-up or subsidiary reports and studies for Operable Unit 1 as well as any other known or contemplated Operable Units at the Clearview Landfill.

We will be happy to promptly respond to your inquiry as to our participation in a PRP Group upon receipt of this information.

Sincerely,

H. Alfred Ryan
Attorney for PECO Energy Company
